### They won cup

The USSR has won the women's intercontinental field hockey cup by beating Argentina 3-2 at home. Apart from the awards, both finalists won places to the 1980 world championship to be held in the Canadian city of Vancouver.

Time is drawing near for the main competitions among the best Soviet cyclists slated to compete in the Peace Race and the world championship. It is now the time for elimination competitions.

### Defying Olympic Charter

The attempts by the presidents of the international hockey and football federations to give professionals access to the Olympic arenas directly contravert the Olympic Charter, comments the Czechoslovak newspaper "Ruda Pravo".

Early in February, a suggestion that athletes under 23 (22 in the case of hockey) who have concluded contracts with professional clubs should be allowed to take part in the Olympic Games was made by a special commission. A month later, this was surprisingly smoothly accepted by the IOC Executive Committee at its meeting in Calgary. The Olympic movement should be aware with the times, the IOC President Juan Antonio Samaranch said in his comment, without any reference to the relevant chapters of the Olympic Charter. We have thoroughly discussed this question, he continued, and we now believe that we are offering the IOC session an optimum decision.

Naturally, the final word belongs to the regular IOC session to be held in Berlin. However, it is clear that the suggestion made by the IOC Executive is another step towards commercialization of the Olympic Games, towards the so-called "open Olympics" — appeals increasingly voiced in the West.

This means that the Olympic movement is now in serious jeopardy, stresses the newspaper.

### WINNING SAFARI—NO NEED FOR GRAY HAIR

As everyone is accustomed, the fourth leg of the Safari Rally world championship has always been accompanied by rain. The long drawn-out rainy season has corrected the situation. Compared with the other, the last race was like a "light week". It was in this leg that Weber's car had the engine cylinder head torn off, and he spent one hour mending the engine. The race was won by the 27-year-old Juha Kankunen of Finland driving a Toyota Celica Turbo.

This is my first victory in world championship and a splendid present for my birthday, he said. The winner disproved the com-

monplace belief that one has to have gray hair to rally. But his win could not be the only one when one crosses that line. Boris MENEZ

### Football day of Europe

The first semifinal games of the football European cups gave advantage to the hosts. They won five games and drew only one.

Moscow Dynamo lost to Rapid in Vienna 1-3 in the Cup Holders Cup.

In the same cup West German Bayern drew with English Everton 0-0. Interestingly, the English have conceded not a single goal yet to the press of tournament.

In the Champions Cup Italy's Juventus beat Bordeaux of France 3-0, and English Liverpool beat Greek Panathinaikos 4-0.

In the UEFA Cup Italy's Inter beat Real Madrid (Spain) 2-0, and Hungary's Videoton defeated Yugoslav Zeljeznicar 3-1.

The return games are on April 24.

Vladimir McMILLIN

Ice-hockey lovers these days are in expectation of hot hockey battles of the 50th world championships starting on April 17 in Prague.

The schedule of the championship is as follows. First the European champion will be determined in a one-stage tournament, to be attended by the USSR, Czechoslovakia, the GDR, Canada, Sweden, West Germany, Finland and the USA.

Then the teams placing 1st-4th will meet in a one-stage tournament to determine the award winners. The points collected at the first stage will not be taken into consideration.

The teams placing 5th-8th at the first stage will, in competition between themselves, determine the team which will cede next year its top league place to Poland. Here the earlier collected points will be taken into consideration.

By tradition the championship arouses noticeable interest among sports journalists. At

the first stage, the organization of them from 10 countries have been accredited to press centre.

Do not be surprised that some countries also want to have information of this championship. Ice hockey continues to gain more popularity among the latest nations to enter the International Hockey Federation as, and Mexico.

### Chile: opposition adopts common platform

The recent murder in Santiago of three opposition leaders, like the murder of Salvador Allende, General Pinochet and the former Faroja Minister Letelier were all carried out on the personal instructions of Pinochet. This was revealed at a press conference in Moscow by Orlando Miles, former Economics and Finance Minister in the late Chilean President's government.

Orlando Miles told Soviet and foreign journalists about the changed political situation in Chile. The major development in recent days is the adoption of "A Compromise for the Sake of Life, for Human Rights and for Democracy", a very important document, signed by representatives of various political opposition parties — the Democratic Christians, the Republicans, the Socialists and the Communists. The document, which is highly anti-fascist, mobilizes the Chilean people to fight the dictatorial regime, said Orlando Miles.

It was signed on April 11 when "Days of Protest and Protection of Life" were celebrated throughout Chile. Troops and police were despatched to disperse the demonstrators, mostly in workers' quarters of the city.

Orlando Miles stressed that the new important opposition document was signed by many party leaders and public figures in Chile. They declared that they have decided to sweep aside all their differences, including ideological, so as to achieve their main goal — restoration of democracy in Chile.

Press conferences like the one in Moscow were held in many other countries, where the main spokesman for different parties declared that their parties had adopted a common platform of action.

### FROM the SOVIET PRESS

#### SOLIDARITY WITH NICARAGUA

The Soviet Union fully supports Nicaragua's just policy of decisive resistance to imperialist diktat and crude pressure, the TASS news agency has stressed in a new statement.

The situation in Central America is becoming increasingly alarming, stresses TASS, because of the further escalation in the dangerous actions of the American administration against Nicaragua which are aimed at destabilizing the domestic affairs of that sovereign state and sabotaging the Sandinista revolution. Washington is set against the Nicaraguan people, who have embarked on the road of independent development and

progressive democratic transformations after throwing off the yoke of the cruel Somoza dictatorship. This is done indiscriminately and in defiance of the accepted moral and legal norms.

The only possible way to solve the problems in Central America is by holding negotiations among the main countries involved, the statement goes on.

This is exactly what Nicaragua proposes. This position has met with understanding and the support of all who cherish the ideals of democracy and peace, who recognize and observe the principles of the United Nations Charter.

### CONFERENCE OF PHYSICIANS

#### TO TORONTO

To intensify and rally the efforts of doctors in all countries in the struggle to avert the threat of nuclear catastrophe and bring to the broadest sections of the world public the awareness of this menace hovering over mankind — such was the main idea of addresses by participants in an international conference organized and held here by the anti-war organization "Physicians for Social Responsibility".

The conference, held under the motto, "The struggle for peace in nuclear age — everyone's responsibility", drew, apart from Canadian doctors who realize the need for active struggle against the nuclear arms race, a few impetus to the arms race and considerably increases the risk of a nuclear war.

#### messages to Afghan leaders

Kabul. The Afghan leaders, Babrak Karmal and Sultan Ali Keshmardan, have received messages of goodwill from the Indian Prime Minister, Rajiv Gandhi.

The Afghan Foreign Minister, Shah Mohammad Dost, and R. Bhandari, Secretary of the Indian Foreign Ministry, who headed in the messages, exchanged views on international issues, developments in the region and Afghan-India bilateral relations. They also discussed cooperation between their two countries and meetings held by the joint Afghan-Indian Commission for Economic and Technical Cooperation.

Let us be worthy of that victory, Patriarch Pimen urged the congregation. Let us redouble our prayers so that the Resurrected God Our Lord give the powers that he wisdom and strength, good counsel and reason to preserve and maintain the sacred gift of life on Earth.

The service was attended by a multitude of Orthodox believers, foreigners as well as members of the diplomatic corps.

## Pressurizing France

Paris. More and more efforts are being made to draw France into the America Strategic Defense Initiative (SDI) programme and to the preparations for "star wars". After the American Defense Secretary Caspar Weinberger, another attempt in this direction has been made by the Secretary-General of the North Atlantic Alliance, Lord Carrington. Addressing a closed-door session of the French Institute for International Relations, he urged NATO member-countries to come out with what he described as a collective response.

Political observers regard the visit by the NATO Secretary-General to Paris as another attempt to pressure France and draw it into Washington's "star wars" preparations.

## SWEDEN FOR NUCLEAR-FREE ZONE

Stockholm. General Secretary of Sweden's Foreign Ministry, Pierre Schori, has declared for establishment of a nuclear-free zone in the North of Europe. In an interview to the Swedish Telegraph Bureau he emphasized that the idea of a nuclear-free zone in the North of Europe enjoys broad support of the country's population. Sweden is ready for concrete negotiations with other northern countries on the question of establishing

in that part of Europe a zone free from nuclear weapons.

Pierre Schori denounced the support which is being rendered by the Reagan administration to Nicaraguan counter-revolutionaries. The activities of the "contras" supported by the United States is terrorism, which is contrary to all norms of international law, said the General Secretary of Sweden's Foreign Ministry.

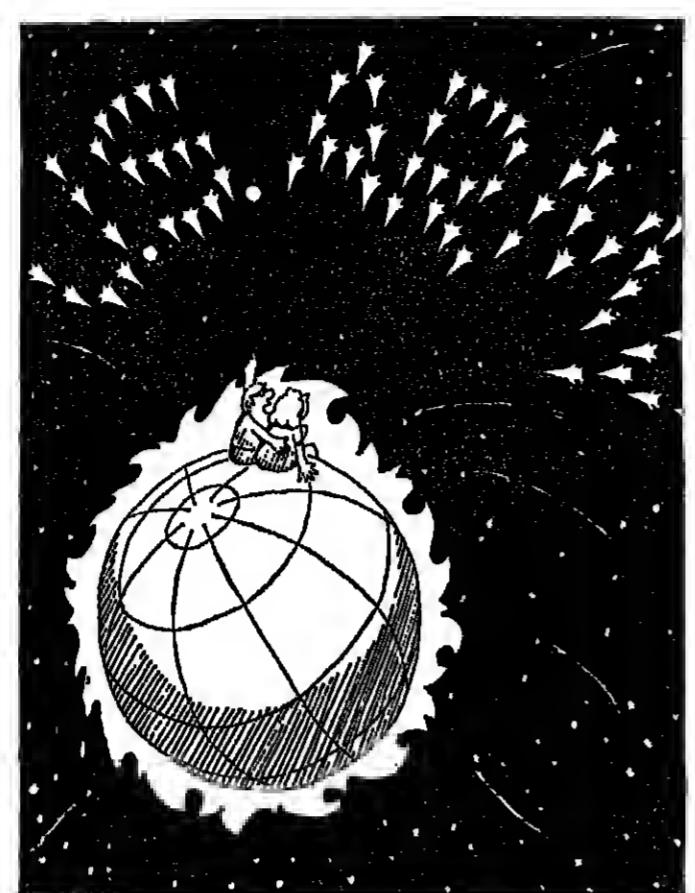

## WASHINGTON GETTING READY FOR 'MINOR' WARS

New York. The Reagan administration is basing up its strike list for terrorist actions abroad. The "Newsweek" magazine reports that over the past few years there has been a sharp increase in the strength of the "special troops" designed for sabotage and punitive operations abroad. At present, the United command of special military operations in Fort Bragg, North Carolina, has now at its disposal nearly fifteen thousand servicemen of all arms and services.

The magazine stresses that at Reagan's suggestion they are equipped with most up-to-date

weapons and hardware, which allow them to engage in large-scale sabotage operations deep into the enemy territory.

The most alarming fact is, however, that these special troops are armed with nuclear weapons — portable nuclear mines which can stop advancing enemy or destroy key tactical targets. It follows from the article that the White House intends to put the special troops to use as part of its preparations for expanding the scale of its aggressive actions against sovereign states by waging "minor" wars against them.

## JAPAN IGNORES TRADE INTERESTS OF ASEAN COUNTRIES

Kuala Lumpur. Japan ignores trade interests of the countries, members of the Association of South-East Asian Nations (ASEAN), said Minister of Commerce and Industry of Malaysia, Razaleigh Hamzah. The minister accused the Japanese side of restricting imports of industrial products from developing countries and giving preference to products from the United States and West European countries.

But it should be taken into account that ASEAN is one of the main importers of Japanese commodities, he said.

According to the local press, Japan refuses to meet the demands of the ASEAN countries that mutual trade turnover be balanced. Chronic deficit of those states in trade with the country of the Rising Sun is the consequence of its protectionist measures.

Ronald Reagan is photographed on the White House lawn with the leaders of the Afghan people's revolution. As a poster says, he is in solidarity with "fighters for Allah". Behind the Afghanis is an American soldier.

According to the local press, the "peace plan", a poster on Nicaragua clearly shows the "human rights" in the "caravan" of debtors with the United States. The agents — the "colonialists" — are to provoke a peasant uprising from the underdeveloped revolutionaries of the Sandinista revolution.

This seriously worried the Sandinistas. They are the leaders of the Sandinista revolution.

### ALEXEI PETRENKO

On the film 'The Living and the Dead' by Konstantin Simonov, Grigory Kozintsev, Alexander Mitro, Dinastr Asanova and Eldar Ryazanov. He can also be seen on his many years at the theatre including his education at the Kharkov Theatrical Institute and his 'apprenticeship' at the theatres in Zaporozhie, Donetsk, Leningrad, and Moscow. Also important are his experiences in life. In the past, Petrenko was a sailor, a blacksmith, a filler and a shepherd.

He is a remarkable actor with tremendous temperament. He is very organic and responsive. We shall yet see him in many films, director Alexander Mitro said about him. In the past Mitro trusted him with Peter the Great, a serious and rather responsible part in the film 'The Story of How Peter Married His Blacksmith'. Petrenko played the great reformer of Russia with complete understanding of his importance and significance of the character, and with precise tasting of the epoch and genre of the film, which was conceived as a musical comedy with a historical subject.

No less interesting and curious are the other characters he has portrayed. In Ilom Klimov's 'Agoey', a historical drama about the last days of the Russian Tsar's dynasty, Alexei Petrenko played Grigory Rasputin, a favorite of Tsar Nicholas II, courtier who influenced many affairs of state and who was eventually murdered by the monarchists. Playing this part of this Rasputin 'seer' and 'sealer', a man of the dark times, the actor revealed his passion, acing, scabbing temperament and his inner power.

He another work with Ilom Klimov is the film 'Parasol', based on Valentin Raspoutine's novel, 'Perling With Metzger'. He also coped well with the strong and self-confident Raspoutine who is no less confident of the power of his millions in Eldar Ryazanov's film 'Semilimber Bel'ad' based on a play by the Russian classic, Alexander Ostrovsky, 'Without Dowry'. These are two epochs and two completely different social and human characters.

At present, Petrenko is filmed much and quite successfully. He can take up with success the comedy of morals, everyday drama, and lofty tragedy. Cinema has been opening his inimitable actor's possibilities.

## BUSINESS

### Soviet theatres for Victory Day

The play "Half a Pagan of War" based on a well-known novel "The Living and the Dead" by Konstantin Simonov has recently been performed at the Moscow Vakhtangov Theatre. This performance has opened in Moscow the final stage of the All-Union theatrical review, dedicated to the 40th anniversary of the Victory.

The playbill of the review includes the performances by dramatic companies from Russian Federation, Ukraine, Belarus, Georgia, Lithuania and Kirghizia. The programme consists of both of works, created under harsh circumstances of the great battles, and of the modern plays. So, "The Front" by Alexander Kornevich will be shown by Sukhumi Drama Theatre. "The Fate of a Man" by Mikhail Sholokhov is brought to Moscow by the company of the Rostov Regional Drama Theatre, "Privates" by

### Soviet-Ethiopian cooperation expanding

The Soviet Union and Ethiopia are expanding their cooperation in the sphere of irrigation and water management. Soviet specialists have completed the aerial photography of the Cambala Valley which will help develop 10,000 hectares of arid lands.

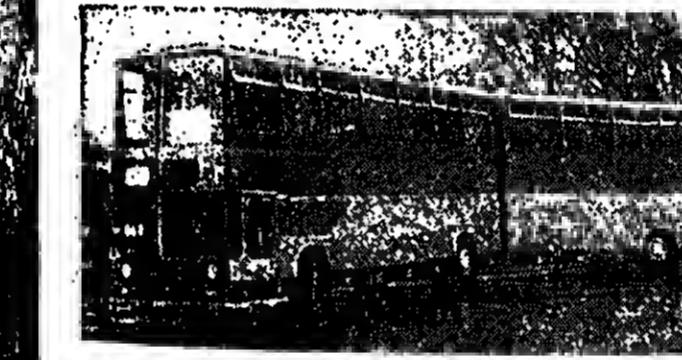

In that area Soviet and Ethiopian specialists are conducting all-round exploration for drawing up a detailed design for the construction of a plain earth dam on the Alvaro River. This 26-metre-high dam will permit to accumulate up to 200 million cubic metres of water for irrigation. The Soviet Union delivered there the necessary equipment, drilling rigs, trucks and other machinery.

There exists a possibility to develop in the future over the Cambala River over 300,000 hectares of lands.

### 100,000th Ikarus bus

Within 35 years the Soviet Union received from Hungary 100,000 Ikarus buses. The jubilee bus — an exhibit of the show "Hungary Along the Road to Socialism" — was turned over to Moscow drivers by representatives of the Hungarian Ceapel motor works, manufacturers of Ikarus buses.

Moscow transport carries 15 million passengers per day. Most of them travel along the streets of Moscow in Ikarus buses. Altogether, 80,000 Hungarian buses carry passengers

### French agro-industrialists in Moscow

For the second time, the national exhibition, "Agroprom-85 — France" is being held in pavilions of the Sokolniki exhibition center.

One hundred and seventy French firms are appearing with a broad programme on subjects which represent such sections, as agricultural engineering, processing, storage and transportation of agricultural produce, preservation and enrichment of soil, and selection of cattle and other sections. The exhibition will be open till April 21.

#### Contacts and contracts

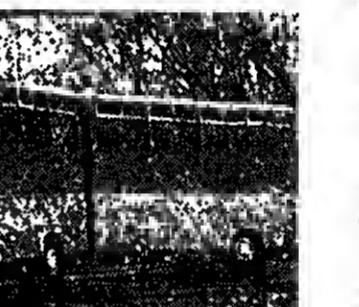

During 1985 India is to deliver to the USSR 35 thousand tonnes of green coffee beans, the largest Soviet order for Indian coffee over the past years.

A Thomas Oy of Finland is to supply the equipment for concentrated berry juices, Konapeki Panfil will sell equipment for meat complexes, and Oulokumpu Oy will deliver equipment for the production of sparkling wines.

### 100,000th Ikarus bus

In different republics of the Soviet Union where the network of their technical maintenance is also expanding. A Hungarian centre of automobile industry has been functioning in Moscow since 1984. Divisions of the auto-service of the Ceapel plant are servicing Ikarus buses in 17 cities of the USSR — from Ushgorod to Novosibirsk, Leningrad to Tashkent. Everything is being done for the 100,000th Ikarus bus to operate in the Soviet Union for a long time and reliably.
